

Universidad Autónoma del Estado de México

Centro Universitario UAEM Atlacomulco, Estado de México

Bachelor's degree in Computer Engineering

Educational period:

2024-B

Activity:

Proyect interface

Learnin unit name:

Paradigamas de programacion

Students names:

Jorge Luis Gil Bello

Emmanuel Nieto García

Alan Osornio García

Ricardo Morales Flores

Alexis Roldan Correa

Teacher's name:

Julio Alberto De la teja Lopez

Date: September 29, 2024.

Project Overview

The project aims to develop an intuitive interface for managing school records. This interface will facilitate the easy entry, retrieval, and modification of student information, enhancing administrative efficiency.

Key Features

Student Records Display:

The interface showcases a comprehensive list of student records, including:

Student ID: Unique identifier for each student.

Full Name: First and last names for easy identification.

Grade Level: Current grade or class of the student.

Enrollment Date: The date the student was enrolled in the school.

Contact Information: Parent or guardian contact details.

Search Functionality:

A search bar allows users to quickly find specific student records by entering the student's name or ID.

Add New Records:

An option to add new student records directly from the interface, which will include fields for all necessary information.

Edit Existing Records:

Ability to select a record and edit its details, ensuring that the information is always up-to-date.

Delete Records:

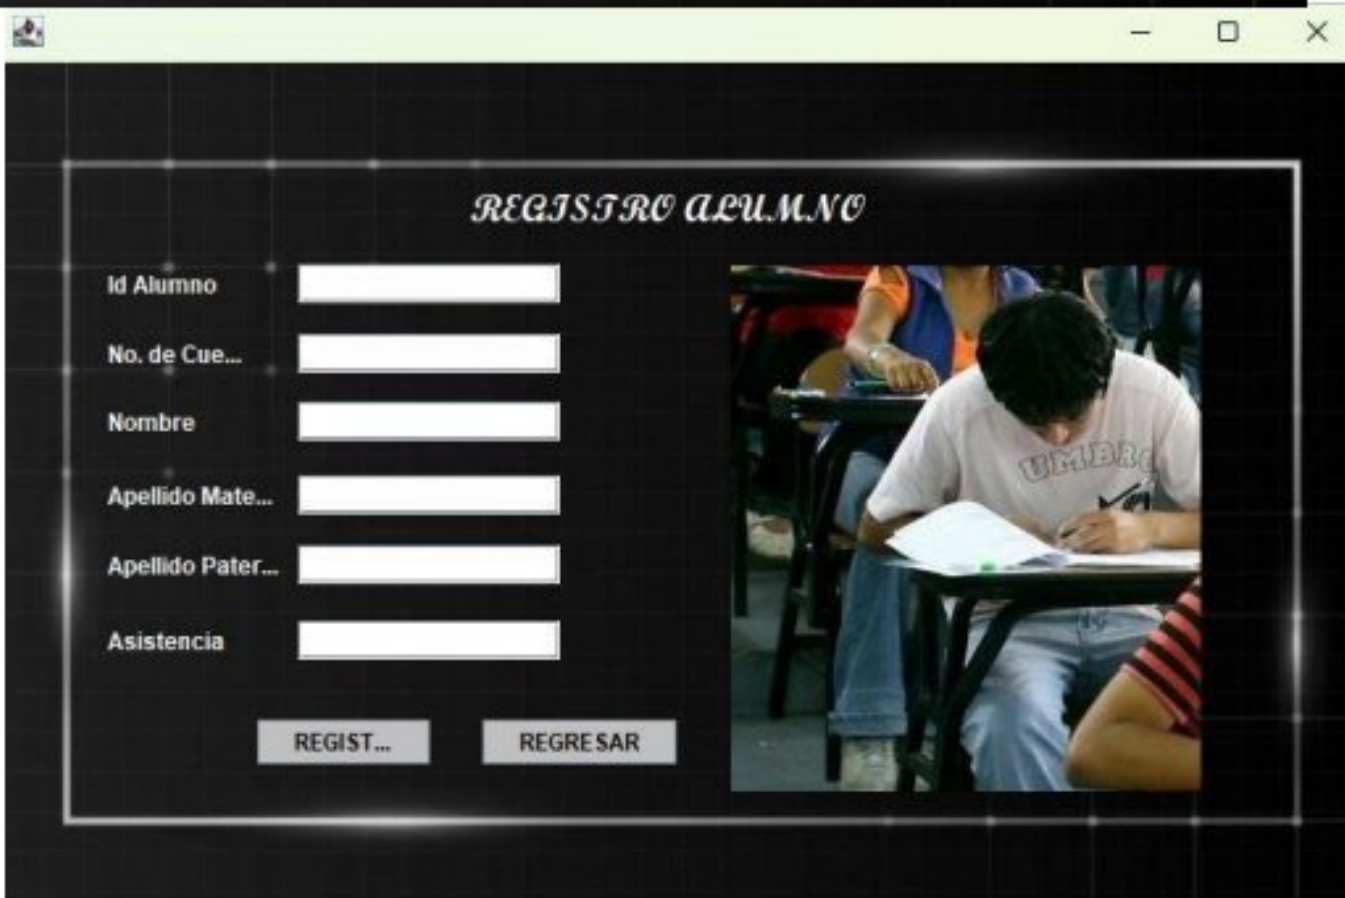

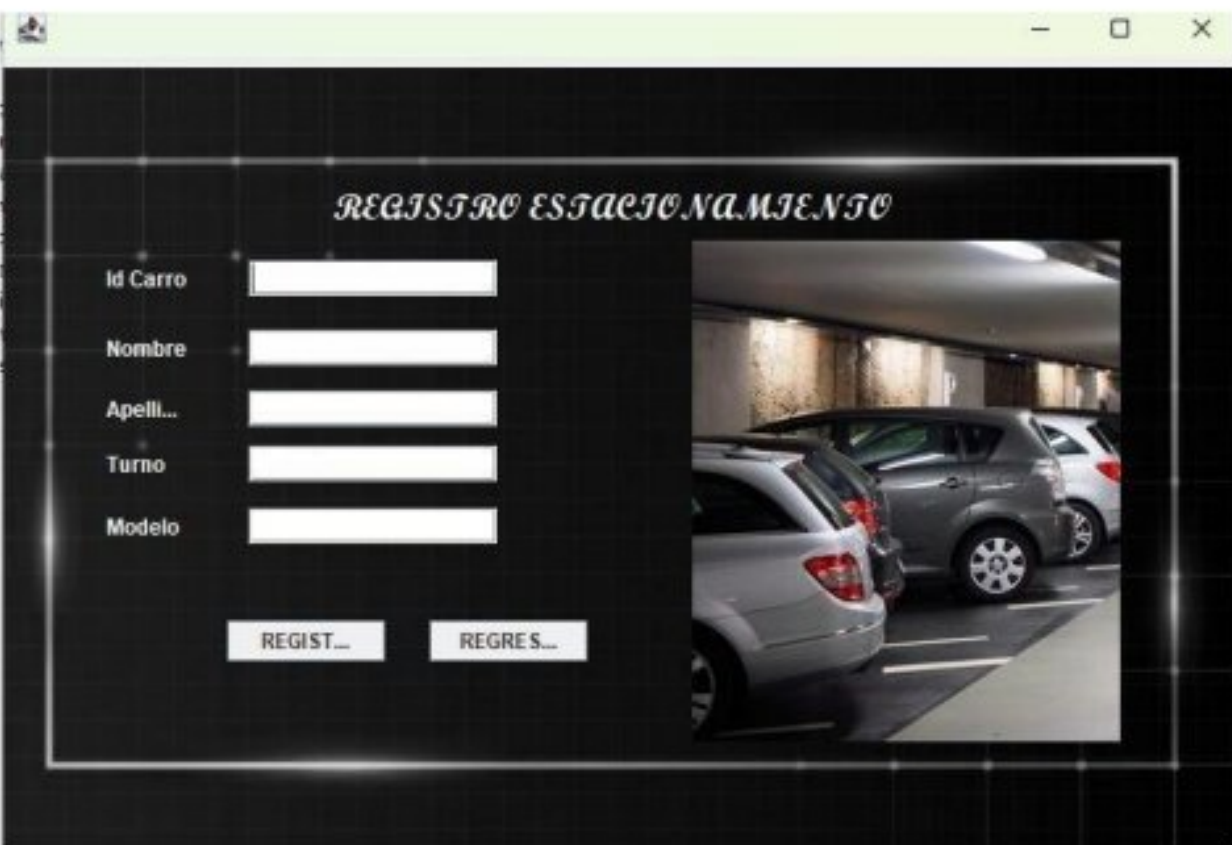

A delete option to remove student records that are no longer needed.

Visual Aids:

Graphical representation of data, such as enrollment statistics over time, grade distributions, etc.

From which the first interface leads to the following pages, which are as follows:

REGISTRO ALUMNO

Id Alumno

No. de Cue...

Nombre

Apellido Mate...

Apellido Pater...

Asistencia

REGIST...

REGRESAR
